

## **Human Impacts Institute One Year Anniversary Fall Fundraiser**

The Human Impacts Institute is a nonprofit organization fostering positive human impacts on the environment and healthy community development through hands-on education, coalition-building, leadership training, and using arts and culture to inspire social change. Come celebrate our first year of programming and support the year to come by attending the Human Impacts Institute's Fall Fundraiser!

- Enjoy music and dancing from New York City DJ Shiran Nicholson
- Appetizers and drinks from local producers
- Live performance art
- Silent auction prizes from: Savy's Sustainable NYC; Green Home Clean;
- Original artwork from acclaimed artists: Laura Baran, Hyemi Cho, Faten Kanaan, and Jessie Lindenberger-Schutz; Handmade jewelry art from Brazil, and much more!

100% of ticket sales will support our 2012 programming, including our:

- MobilizeUS! Campaign, which is mobilizing Americans to support healthy communities and a healthy environment through community-based action;
- Hands-on Environmental Workshops on issues such as water quality, climate change, waste prevention, and consumer choice;
- Environmental Leadership Trainings for youth to become high-level policy negotiators and join our delegation to the United Nations;
- Growing Our Roots program, where individuals are trained in caring for their local environment; Creative Public Engagement by working with performers, film-makers, and youth to create inspirational outreach materials to promote public engagement and positive action in our communities!

Choose your level of support (and your number of drink tickets!) below. For donations of \$250 and more, a one-on-one environmental consulting session will be provided to help you save money and green your office or home!
